Release within Club to lower level team

Once a player registers, they have committed to play with LSC for the season. Once a player is placed on a team, they have committed to play with the team for the season. Release from this commitment will only be allowed in accordance with MYSA policy. However, a parent can choose to play at a lower level than their child was placed at following evaluations as long as it is at the same age group within LSC.

LSC realizes C1 has different commitment levels than C2 or C3. If a parent wishes to transfer their child to C2 or C3 from a C1 or C2 team, contact the Travel Manager by March 1, travelmanager@lakevillesoccer.org

- If the request is made by March 1 and it doesn't impact the viability of either team, the next ranked player, from evaluations, on the second team will be moved onto the C1 team.
- A player/parent has 24 hours to decide if they want to move to C1, if they decide not to move the next ranked player will be asked. This is done until a player accepts.
- Please note, if a player requests to move onto a C2 or C3 team, the Travel Manger does not have to move another player onto the C1 team. The teams may be at their target number of players and as a result no team will be over-rostered.

If a request comes after March 1, the request will be brought to the LSC Board for approval.
